Your submissions dated September 4, 2012

Dear Dr. Assaf:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. Two (2) copies of the final printed labeling for each product must be submitted prior to releasing the products for shipment. A stamped copy of each label is enclosed for your records.

Copies of the efficacy review memorandum and the product performance data evaluation records (DERs) are included for your records.

If you have questions regarding this action, please contact Olga Odiott at (703) 308-9369.

Sincerely,

Mark Suarez
Product Manager 13
Insecticide Branch
Registration Division (7505P)

Enclosures

UltraTec® DS 210 INSECTICIDE

- *For Household And Domestic Use Only*
- *[Water-Based]*
- *Quick Killing Action*
- *Rapid Knockdown Formula*
- *Kills Carbamate And Organophosphate Resistant Cockroaches*
- *Kills Ants And Roaches On Contact*
- *Kills Carpenter Ants*
- *Controls Scorpions, Spiders And Ticks*
- *Long-Lasting Control*
- *For Indoor/Outdoor Use*
- *Kills Fleas-Roaches-Ants-Spiders*
- *Kills On Contact*
- *Broad Spectrum Insect Control*
- *No Unpleasant Odor*
- *Won't Stain Carpets and Floors*
- *Keeps Killing Lady Beetles for up to 35 Days*
- *Kills Asian Lady [bird] Beetles*
- *Kills Asian Lady bugs by contact*
- *Protects Against German Cockroaches and Houseflies For up To 12 Weeks [3 Months]*
- *Keeps on Killing German Cockroaches and Houseflies for up to 12 Weeks [3 Months]*
- *Keeps On Killing German & American Cockroaches And Argentine Ants For Up To 18 Months [1.5 years]**
- *Protects Against German & American Cockroaches And Argentine Ants For Up To 18 Months [1.5 years]**
- *Keep On Killing For Up To 18 Months [1.5 years**]*

*on non-porous surfaces

*German & American Cockroaches and Argentine Ants on non-porous surfaces

ACTIVE INGREDIENTS:

S-Bioallethrin.....0.10%

Deltamethrin.....0.02%

OTHER INGREDIENTS*:.....99.88%

100.00%

*Contains petroleum distillate.

PRECAUCION AL CONSUMIDOR: Si usted no lee ingles, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.

(TO THE USER: If you cannot read English, do not use this product until the label has been fully explained to you.)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

[Products used exclusively indoors may omit the Environmental Hazards Statement.]

[Environmental Hazards]

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.]

Physical and Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

UltraTec DS-210 works in two ways:

- 1) It kills bugs fast on contact; and
- 2) Its residual action keeps on killing *American & German Cockroaches and Argentine Ants* for up to 18 Months (1.5 Years) on non-porous surfaces and *Houseflies* for up to 12 weeks (3 months) after you spray.

Contact kill gives you immediate results when spraying insects directly, while residual activity kills insects when they return to treated areas.

UltraTec DS 210 Insecticide is intended for use in and around residential structures and their immediate surroundings. Permitted areas of use include: apartments, atriiums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches, recreational vehicles, rooms, solariums, storage areas, sun rooms, utility rooms and verandas.

Use Restrictions

- Do not allow adults, children, or pets to enter the treated area until sprays have dried.
- Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.
- Do not apply in schools, daycares, or other locations where children are present.
- Remove all exposed food and cooking utensils. Cover all food handling surfaces and/or wash thoroughly after treatment and before use.
- Do not use on edible crops.
- Do not contaminate fishponds or spray directly to water.
- Remove birds and other pets before application. Cover any water inhabited by fish (such as aquariums and ornamental fish ponds) during treatment and turn aquarium systems off.
- Remove all exposed food and cooking utensils. Cover all food handling surfaces and/or wash thoroughly after treatment and before use.

[Alternate text for product intended for indoor use.]

- [[Indoor] surface spray uses are limited to spot treatments only. Broadcast surface applications are prohibited.]

[Alternate text for product intended for outdoor use.]

- Outdoor uses are limited to spot treatment only. Broadcast applications are prohibited.
- Do not water the treated area to the point of run-off.
- Do not make applications during rain.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.]

SHAKE WELL BEFORE EACH USE. Hold container upright. Do not spray up into air. Apply to surfaces only. Remove protective cap and direct spray away from face. Hold can 12-18 inches from surface being sprayed. Press button down and spray as directed. Spray until surface is slightly wet but not to the point of run-off. Over application may cause damage.

Test product in an inconspicuous area before applying. Will not stain surfaces or fabrics where water alone causes no damage.

INDOORS:

Cockroaches [American and German Cockroaches] (including *Adult and Immature Stages of Both Non-Resistant and Organophosphate and Carbamate Resistant Strains*), *Ants [including Argentine, Carpenter, Fire, Harvester & Pharaoh]*, *Book Lice, Boxelder Bugs, Centipedes, Crickets, Dermestids, Firebrats, Fleas, Palmetto Bugs, Silverfish, Sowbugs, Ticks* and *Waterbugs*: Apply thoroughly to all areas where these pests crawl and hide, especially in cracks and crevices, and hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and similar areas. When pests are driven out, spray directly. Repeat as necessary but not more than once per week.

[*Roaches*: Spray in cracks and crevices, around baseboards and other hiding places until wet. When driven out, spray bugs directly.]

Ants: Spray ant trails and around doors and windows and other places where ants enter the house. Repeat as necessary but not more than once per week.

Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

Ticks and Fleas ON SURFACES: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters. Adult fleas and larvae contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Delicate fabrics should be tested for staining in an inconspicuous area prior to use.

Spiders: Apply along and behind baseboards, to window and doorframes, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and *Ticks*: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

[*Silverfish, Crickets, Spiders, Earwigs*: Apply around doors and windows, baseboards, storage areas, pipes and other areas infested by these pests or spray pests directly.]

Asian Lady Bird Beetles (Lady bugs): Spray areas where bugs crawl or are rest, around doors, windows and areas where insects can enter the home.

CONTACT SPRAY: To kill *ants* (including *Argentine, carpenter, fire, harvester & pharaoh ants*), *bed bugs, centipedes, cockroaches, fleas, spiders* (including *brown recluse, black widow & hobo spiders*), *ticks, chiggers, black flies, deer flies, horse flies, gnats, biting midges and wasps*: Spray where insects congregate and individual pests when seen. Spray 1-3 seconds contacting insects directly. Insects contacted by spray will be killed.

PANTRY PESTS - Grain Beetles (Rusty, Merchant and Saw-Toothed), Flour Beetles (Red and Confused), Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elmleaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles and Tobacco Moths: Treat exposed stages. Remove all food-stuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils. Wash any exposed food handling surfaces and utensils before use.

Carpet Beetles (Black, Furniture and Varied): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

Webbing Clothes Moths: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

5/6

OUTDOORS:

Point nozzle away from face. Hold can on a slight downward angle, approximately 12 - 18 inches from surface to be sprayed. For best results, spray when air is calm. Spray with wind if breeze is blowing.

PESTS ON OUTSIDE SURFACES OF BUILDINGS: For control of building infestation by *Ants*, *Clover Mites*, *Crickets* and *Sowbugs (Pillbugs)*. Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary but not more than once per week.

CRAWLING INSECTS: *Ants*, *Cockroaches (including American, Asian and German Cockroaches)*, *Centipedes*, *Crickets*, *Mole Crickets*, *Waterbugs* and *Silverfish*. Hold can 12 to 18 inches from surface to be treated and spray in infested surface of patio or picnic areas, hitting as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

Ants: Spray ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris. Repeat as necessary but not more than once per week.

[*Ants:* Spray ant trails and hills. If nest can be located, spray surface of nest.]

Lone Star Ticks, *Dog Ticks*, *Crickets*, *Fleas* and *Earwigs:* Apply thoroughly to infestation in bushes, grass or weeds.

Asian Lady Bird Beetles (Lady bugs): Spray areas where bugs crawl or rest, especially around doors, on and around screens, windows, doorframes and areas where insects can enter the home. Remove screens prior to spraying them, allow to dry and then reinstall them.

Wasps, *Mud Daubers*, *Hornets* and *Bees:* Spray nests and bees directly. Aim spray at nest openings and spray net for 2-3 seconds. Applications should be made late in the evening when insects are at rest. Outdoor spot treatments or limited occupancy areas (i.e. attics, barns, storage sheds) only.

FLYING INSECTS: *Houseflies*, *Gnats*, *Mosquitoes* and *Small Flying Moths:* Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.

FOR THE CONTROL OF ORNAMENTAL GARDEN INSECTS: For use on roses, dahlias, asters and other ornamentals to kill *Japanese Beetles* hit by spray, as well as *Whiteflies*, *Aphids*, *Armyworms*, *Lace Bugs*, *Mealy Bugs*, *Exposed Thrips*, *Pavement Ants*, *Spiders*, *Spider* and *Red Mites*, *Clover Mites* and *Leafminers*.

May be used on plants, as well as a multi-purpose spray in small ornamental gardens and for spot treatments of incipient insect infestations to prevent spreading in large garden areas.

May also be used on other plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, delphiniums, dogwood, English ivy, euonymus, fuschia, geraniums, crassula, grape vine, Kentia palm, laurel, marigolds, rhododendrons, rubber plants, snapdragons, stocks, wandering Jews and zinnias.

When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Spray in one second bursts. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Over application may cause damage. Spray insects directly whenever possible. Repeat treatment as necessary but not more than once per week.

STORAGE AND DISPOSAL

Pesticide Storage: Do not contaminate water, food or feed by storage and disposal. Store in a cool, dry area away from [inaccessible to] children and pets and away from heat, sparks and open flame. [Protect from freezing.] [Do not freeze.] [Do not transport or store below 32°F.]

Pesticide Disposal and Container Handling: Do Not Puncture or Incinerate! *If empty:* Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency [or 1-877-315-9819] for disposal instructions. [This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label.]
